

How to Request a COVID-19 test and isolation rules for people in the same household

The person taken ill and showing symptoms of COVID-19, i.e. a raised temperature, a new persistent cough or changes to smell &/or taste must on returning home request a test. This can be done via the government website 111online @ www.111.nhs.uk or by phoning 119.

Members of the same household and people having been in close contact with the person taken ill should begin to self-isolate until the results of the test are known.
